Ministry in Nicaragua: Living Well Class

Join us in the Living Well class as Patti Bunk shares about her work with the Door of Love Ministry. This organization is helping children facing extreme poverty in Nicaragua. By supporting children's education, Door of Love is helping children finish primary school and even go on to university. This is creating systemic change and providing opportunities for children and their communities alike. We'll learn about regional culture, the challenges folks are facing, and some of the ways they have overcome these obstacles.
